- Breathable Mesh Upper – Ideal for Saudi Climate
- Slip-Resistant Rubber Sole
- Shock-Absorbing Midsole
- Lightweight Construction for All-Day Comfort
- Available in Brown, Camel and Olive

The Shelter SH-300 is a dependable everyday steel toe safety shoe built for Saudi industrial workers who need durable, breathable protection on long shifts. The breathable mesh upper keeps feet cool in Saudi Arabia's heat, while the steel toe cap meets EN ISO 20345 S1 standards for impact and compression resistance. The slip-resistant sole provides grip on oily or wet surfaces common in construction, warehousing and manufacturing environments across the Kingdom.

Ideal For: Construction sites, warehouses, manufacturing facilities and logistics work in Saudi Arabia – Riyadh, Jeddah, Dammam, Jubail, Yanbu and across the Kingdom.
