The Shelter SH805L is a steel toe safety shoe engineered for women in Saudi industrial workplaces. With a slim, women's-specific fit and breathable lining, it delivers certified S1-class foot protection without sacrificing comfort – a practical choice for female HSE officers, lab technicians, food production staff and light industrial workers.
Certified to EN ISO 20345 S1 – full impact, compression and slip-resistance protection in a women's-specific design.
Ideal For: Female workers in healthcare, laboratories, food processing, manufacturing and light industrial roles across Saudi Arabia.
