PRODUCT DATA SHEET

ELEVATE KNIT BLACK LOW

S1P ESD HRO SRC – Black

Article No. 64.316.0 | Sizes 39–47 | Width 11 | Metal-Free | Vegan

Seamless Woven SAFETY KNIT™ Upper

Outsole

Heel

KEY DATA

PROTECTION	Fiberglass toe cap and flexible FAP® midsole
PLUS	TPU protection in the heel and toe area, metal-free, ESD
UPPER	Seamless woven SAFETY KNIT™ textile
LINING	BreathActive functional lining
FOOTBED	evercushion® BA+
SOLE	URBAN rubber sole with idCELL and Rotation Point System, 300 °C heat-resistant
COLOUR	Black
SIZES / WIDTH	39–47 / 11

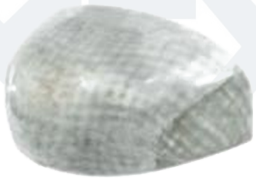

Slip Resistant | HRO Sole | Breathable | Lightweight | Vegan | Metal Free | DGUV 112-191

TECHNOLOGIES

Rubber Outsole URBAN

This 300 °C heat-resistant HRO rubber outsole with its differently shaped profile elements offers optimal mobility and safe contact with the ground. Due to the reinforcement of the rotation point, friction and thus tiredness can be significantly reduced.

Fiberglass Toe Cap

Newly developed fiberglass-reinforced composite toe cap with more space for the toes, lighter than a common steel cap, antimagnetic and thermally insulating.

idCELL

The idCELL element in the heel area consists of a very soft sponge EVA midsole and perfectly absorbs impacts and shocks when the heel strikes the ground.

EVA Midsole

We injected billions of tiny bubbles into this ultra-lightweight midsole for optimal cushioning and an improved flexing action of the foot.

evercushion® BA+

This anatomically shaped, moisture-regulating footbed has a non-slip surface. Two layers of foamed polyurethane in different densities guarantee active cushioning. The heel and ball elevations as well as the support of the longitudinal arch improve the foot's hold. Furthermore, they ensure a natural position of the foot, relief of pressure and muscle stimulation during walking.

SAFETY KNIT™

The highly flexible textile fits snugly to the foot, giving the impression of wearing a sock. The upper SAFETY KNIT™, a mixture of high-quality synthetic fabrics, offers high flexibility and high resistance at the same time.
