PACKING	10 pairs per carton

PROTECTION FEATURES

EN 20345 | Safety Toe Cap | Puncture-Resistant | Slip-Resistant | Oil and Fuel Resistant | Breathable Upper | Removable Footbed

FEATURES

ANTI-SMASHING & PUNCTURE-PROOF

The steel toe cap and the anti-puncture midsole meet standard EN 20345:2022, protecting your feet from injury by falling objects and sharp objects.

SLIP-RESISTANT & OIL- AND FUEL-RESISTANT

The footwear has SRC slip-, oil- and abrasion-resistant outsoles, meeting the needs of those who work in demanding environments. Work confidently even on slippery surfaces with these non-slip and oil-resistant safety shoes.

PREMIUM MATERIAL AND CRAFT

These shoes are made of breathable, lightweight microfiber leather and a double-density PU outsole, improving wear resistance while avoiding safety work shoes that are too heavy, and reducing the burden of work. The breathable and warm design keeps your feet dry and comfortable while working all day.
