- Flexible Nylon Tongue and Collar for Comfort and Breathability
- Mesh Lining for Airflow and Moisture Management
- Hi-Poly Footbed for Cushioning and Reduced Fatigue
- EVA-Rubber Outsole for Slip Resistance and Shock Absorption

OVERVIEW

The Shelter SH306 Steel Toe Safety Shoes deliver reliable protection and all-day comfort for Saudi professionals working in tough industrial environments. These S1-rated safety shoes feature a steel toe cap and durable EVA-rubber sole engineered for construction, manufacturing and industrial workplaces. The S1-rated steel toe provides enhanced safety against impact and compression, while the durable EVA-rubber sole delivers superior slip resistance and shock absorption on various worksite surfaces. The high-quality cow split leather upper adds durability and water resistance for long-lasting performance, and the flexible nylon tongue and collar add comfort and breathability for hot Saudi workdays. A mesh interior lining promotes airflow while the Hi-Poly footbed cushions every step.

Best for: construction, manufacturing, industrial workplaces, oil & gas and warehousing across Saudi Arabia.
