OVERVIEW

Tackle your workday with confidence in the Shelter SH917 Composite Toe Safety Shoes. Built for Saudi industrial professionals in construction, manufacturing and utilities, the composite toe provides metal-free protection that is ESD-safe and ideal for environments with security screening. The nubuck upper offers durability and a professional appearance, while the slip-resistant sole keeps you secure on any surface.

IDEAL FOR

Construction, electrical maintenance, manufacturing and utilities across Saudi Arabia — Riyadh, Jeddah, Dammam and the Eastern Province.
