PACKAGING	12 pairs per bag, 12 bags per carton	**INDUSTRIES**	Automotive, Machinery & Equipment
ALL INDUSTRIES	Automotive, Machinery and Equipment, Infrastructure Maintenance, Chemical		

TECHNICAL SPECIFICATIONS

DESCRIPTION

- **Heightened Tactility and Dexterity:** HyFlex™ 11-818 safety gloves’ lightweight 18-gauge liner and thin coating grant them a “second skin” feel.
- **Improved Durability:** Their FORTIX™ Abrasion Resistance nitrile coating helps them achieve ANSI/ISEA- and EN-compliant abrasion resistance.
- **Enhanced Grip:** The same nitrile foam coating ensures excellent grip, especially in dry conditions.
- **Elevated Comfort:** HyFlex™ 11-818 industrial gloves’ ZONZ™ Comfort Fit knitwork relieves tension in stress-prone areas.
- **Enhanced Breathability:** As their coating is thin and palm-dipped, hand protection is more breathable.
- **Certified Skin-Friendliness and Cleanliness:** Dermatest™ certification ensures skin-friendliness, while impurities are extracted through a proprietary washing process.

ANSELL EARTH

Ansell Earth represents our products that offer environmental benefits throughout their life cycle.

Manufacturing:

- Made in a facility running on 83% renewable energy
- Certified by Intertek for diverting >99% of waste from landfill
- With accredited Environmental and Energy Management Systems
